The aim of this article is to analyze the articles that cover the Entrepreneurship and Human Resources in Hotel Industry in recognized Brazilian journals and ranked by the Qualis System of Coordenação de Pessoal de Ensino Superior (CAPES), as well as the influence of the international literature in its production. Through bibliometrics, the articles published in the period 2008 - 2012 that addressed the themes Entrepreneurship and Human Resources, related to Hotel Industry were selected and the presence of the international literature in the references identified. The period of analysis is representative because 681 articles were published in the eight journals selected, 73 of which in the area of Hotel Industry. Six deal with Entrepreneurship and eleven discuss Human Resources. It was observed that there is significant use of publications in international journals in the area of Entrepreneurship, while this share is minimal in the area of Human Resources. The work shows the status and profile of research on these issues in Brazil and highlights the need for advances in several respects.

KEY WORDS: tourism, entrepreneurship, human resources, hospitality industry, bibliometric.
